### PURPOSE OF STUDYING THE BIBLE...

is to know Jesus and, as a result, to be forever changed by His truth. Rather than bend the Bible around our lives, we must allow God to bend our lives around the Bible.

### STEPS TO STUDYING THE BIBLE...

#### Step #1: Observation (WHAT does the text say?)

- What are the facts (who, what, where, when, how and why)?
- What exactly was said?
  - Any repeating words?
  - Any contrasting words?
  - Any promises from God?
- What was the historical & cultural context in which this was written?
- Put yourself into the verse and visualize (hear, feel, smell) what is being described.

#### Step #2: Interpretation (What does the text MEAN?)

- Why does this matter?
- Why is this included in Scripture?
- What does this mean?
- Context
  - Is my interpretation consistent with other Scripture on the same topic?
  - Is it consistent with the theme, purpose, and structure of the book in which it is located?
  - Am I considering the historical and cultural context?
- Remember, Scripture will never contradict Scripture.

#### Step #3: Application (HOW should I apply these truths to my life?)

- How does this apply to my life?
- What needs to change in my life to start living this truth out?
